To Whom It May Concern:

I have had the pleasure of working with Daniel Sharon over the last 5 years. He is the most professional, professional I have ever worked with. My company provides insurance to over one thousand commercial customers and Daniel stands out amongst the many management teams we have a relationship with. The reason I am so confidently able to say this is:

1. His attention to detail.
2. His diligence and follow through.
3. His ability to forecast and anticipate.

Daniel makes the lives of his business partners that much easier. There is much I have learnt from him.

Yours faithfully,
